Dear Rachel & Katie

Thank you again for the opportunity to introduce British Enrolment Partners (BEP) and to discuss how we could support Wellington's international recruitment in the upcoming academic year. It was a pleasure to meet with you both and learn more about Wellington's international ambitions.

As discussed, I have attached the BEP proposal for your consideration, together with the presentation from yesterday's meeting, which I hope will be useful to share with the Governors. I wanted to reiterate that BEP can support Wellington in providing global outreach through our established network of educational agents, and introducing Wellington to agencies across our wider network and through planned recruitment activities. Equally, we can act as an extension of the Wellington team, working strategically within defined markets and supporting the development of those markets as an integrated part of your international recruitment activity. The most appropriate approach can be explored further once you have had an opportunity to discuss the partnership models internally.

In terms of agency outreach and potential lead generation, we would be very pleased to introduce Wellington across our network and at relevant planned events. However, particularly in markets such as China, we would first want to obtain feedback from our partner agencies regarding Wellington's offering and the level of demand they are seeing. This would allow us to build a more informed view of the recruitment opportunity rather than setting expectations around enquiry generation without sufficient market evidence.

Similarly, as BEP has not previously recruited for Wellington, there is no historical, school-specific data from which to establish a definitive international enquiry forecast at this stage. I would therefore suggest that discussion around indicative first-year planning projections would be most valuable once there has been an internal decision regarding the preferred partnership model and target markets, alongside a greater understanding of Wellington's offering and positioning within those markets. This would be constructive in developing projections that are realistic, evidence-based and aligned with the agreed recruitment strategy.

From a geographical perspective, we have received positive feedback from schools in the South West regarding the BEP partnership. At present, however, the closest school that has advised us of its intention to join the partnership is based in Oxford. As we mentioned yesterday, the partnership will attempt to include schools that are both geographically diverse as well as encompassing a variety of specialisms.

I hope the proposal provides a helpful overview of the different ways BEP could support Wellington School. Please do not hesitate to contact me if you, Katie or the Governors have any questions regarding the proposal, partnership models or potential next steps. I would be very happy to provide any further clarification or information that would be helpful following your internal discussions.

I would be most grateful if you can also share Wellington's latest academic results and details of student achievements.

Thank you again for your time and I look forward to exploring how BEP could support Wellington's international recruitment ambitions.

Best wishes,

John
