**Subject:** Re: Durham Cathedral Schools Foundation / British Enrolment Partners Agreement

Dear John

Thank you for your time too. I'm holiday now until 11 August so I will compile the list on my return if that's ok?

Any suggestions on markets would be great, Thailand and Belgium and Spain come to mind initially.

Kind regards  
Debbie

**Subject:** RE: Durham Cathedral Schools Foundation / British Enrolment Partners Agreement

Dear Debbie

Thanks again for your time yesterday.

If I can be of any help with providing more detail about activity and representation in markets to help with creating the list, please do get in touch. We are planning a roadshow to Asia in the Autumn, notably China & Thailand, with scope for expansion and really hope to include Durham within our BEP school promotions.

Kindest regards

John

**Subject:** RE: Durham Cathedral Schools Foundation / British Enrolment Partners Agreement

Dear Debbie,

Thank you very much for your thoughtful and constructive response.

I think it would be helpful to have a conversation before we move straight into another legal redraft, as there are a few practical points it would be useful to clarify together — particularly around agent

relationships, new market development, attribution, and the distinction between agent commission and BEP's operational service fee.

BEP is not intended to operate as a traditional agent. The intention is for BEP to act as an outsourced international enrolment function for DCSF, supporting market development, agent coordination, family communication, application progression, CRM visibility, reporting and conversion through to enrolment.

DCSF would, of course, retain full control over admissions decisions, offers, scholarships, bursaries, safeguarding, UKVI matters, finance, pastoral matters and direct communication with families.

At the same time, because the Performance Partnership carries no monthly retainer, BEP would be carrying the upfront cost and risk of developing new international markets and agent relationships. We therefore need a clear and fair division of responsibility, so that both parties avoid duplication, mixed messages in the market and future attribution disputes.

Our suggested principle is that DCSF keeps its existing agents and existing pipeline, clearly recorded at the outset, while BEP has defined responsibility for developing new agent relationships and new market opportunities under the Performance Partnership.

I also wanted to clarify that BEP's 15% operational service fee is separate from agent commission. Agent commission is payable in respect of the relevant agent. BEP's operational service fee reflects the wider work of operating and coordinating the international enrolment function and, as set out in the June proposal, is payable for the duration of the pupil's enrolment where that pupil is supported through the BEP function.

We understand your concerns about exclusivity. One possible route may be to explore whether a minimum guaranteed pupil number could be linked to defined exclusivity or regional exclusivity in agreed markets. We would be open to discussing this if it is something DCSF would consider.

Rather than trying to resolve this all by email, could we arrange a meeting to talk through the operating model and agree the best way forward?

Thank you again for your constructive feedback. We value the opportunity to work with DCSF and hope we can shape a structure that is fair, clear and effective for both parties.

We are quite flexible this week, so please could you suggest a time that works best for you?

Kind regards,  
Ying

**Subject:** RE: Durham Cathedral Schools Foundation / British Enrolment Partners Agreement

Dear Debbie

Thank you very much for your careful response.

We are very pleased to hear that you remain positive about the opportunity to work with BEP, and I genuinely appreciate the care you have taken in comparing the draft agreement with the June Performance Partnership proposal. I recognise that the agreement surpasses detail shared in last month's proposal and we are working now on reviewing the points you have raised.

I would welcome the opportunity to discuss this with you later this week once we have completed our review and addressed changes to the agreement.

Thank you again for your constructive feedback. We value the opportunity to work with DCSF and hope we can shape a structure that is both commercially fair and operationally effective for both parties.

Kindest regards

John

**Subject:** Re: Durham Cathedral Schools Foundation / British Enrolment Partners Agreement

Dear John,

Thank you for sending through the International Student Recruitment Services Agreement and for the earlier Performance Partnership proposal.

I remain positive about the opportunity to work with BEP. The international recruitment market is particularly challenging at present, and I am comfortable in principle with a commercial model under which BEP receives 30% in the first year and 15% in subsequent years, provided this only becomes payable where a pupil successfully enrolls. In the current market, generating additional pupils would represent genuine value to the Foundation.

However, having compared the agreement with the June proposal, I do not feel the current drafting fully reflects the non-exclusive basis originally presented.

The proposal states that there would be no exclusivity, no requirement for DCSF to replace or surrender its existing agents, and that the fee would apply to new international enrolments generated or materially progressed through the BEP function.

The agreement appears to go further. In particular, Clause 6.3.1 requires new agent relationships to be established through BEP and prevents DCSF from entering into a direct agreement with a new agent without BEP's consent. Clause 5.3.1(3) also prevents DCSF from directly approaching or engaging an agent within BEP's network, while Clause 10.4 extends restrictions in relation to agents introduced by BEP beyond the term of the agreement.

The lead-registration process also creates a concern. Under Clause 7.2, if DCSF does not respond within five days, BEP may assume that no prior registration exists, even where DCSF subsequently identifies an existing relationship or earlier enquiry.

I fully understand and accept that DCSF should not bypass BEP in relation to a pupil, family or agent genuinely introduced and materially progressed by BEP. Equally, I need the agreement to protect DCSF from commission being claimed in respect of:

- existing DCSF agents and established relationships;
- pupils already within our pipeline;
- direct enquiries received through our website, referrals, visits, siblings, alumni or other DCSF channels;
- agents identified independently by DCSF at recruitment fairs, overseas visits, conferences or through our own professional network.

It is important that DCSF remains able to attend fairs, develop new markets and appoint new agents independently. The agreement does not include a guaranteed minimum number of pupil enrolments, so it would not be commercially reasonable for the Foundation to restrict its own recruitment activity or effectively hand over control of all future agent relationships. That would leave DCSF carrying a significant opportunity risk without any corresponding recruitment guarantee.

I would therefore be grateful if the agreement could be amended to confirm that:

- the arrangement is expressly non-exclusive;
- new agent relationships identified independently by DCSF do not need to be established through BEP;
- DCSF may appoint an independently sourced new agent directly without BEP's consent, with Clauses 6.3.1 and 6.3.2 amended accordingly;
- all existing DCSF agents are listed in Schedule 4 and remain direct DCSF relationships unless otherwise agreed in writing;
- DCSF may continue to attend fairs, undertake overseas recruitment activity and independently identify, approach and appoint new agents;
- direct enquiries and pupils already in DCSF's pipeline are excluded;
- BEP's fee applies only where BEP has introduced or materially progressed the pupil towards enrolment;
- registration of a lead alone does not establish entitlement where DCSF can demonstrate an existing or independently sourced relationship;

- the five-day deemed acceptance provision in Clause 7.2 is removed, with attribution instead determined by evidence and contemporaneous CRM records;
- neither party may circumvent the other in relation to a relationship genuinely introduced by that party.

Clause 5.3.1(1) also appears to prevent DCSF from directly contacting or negotiating with a prospective family introduced through BEP, except in relation to matters specifically reserved to DCSF under Clause 3. This would be operationally impractical, as our Admissions, boarding, pastoral, learning support, Finance and UKVI teams will all need to communicate directly with families.

DCSF must therefore retain an unrestricted right to communicate directly with applicants and families. BEP's protection should relate to its entitlement to commission, rather than control of the relationship between the School and the family.

I would also like Clause 4.7 to be amended. It currently allows BEP to update the Commission Schedule on 30 days' notice without expressly requiring DCSF's agreement. This appears inconsistent with Clause 17.4, which provides that amendments must be made in writing and signed by authorised representatives of both parties.

No fee or commission change should therefore take effect unless agreed in writing by both parties. Any change should also not apply retrospectively to existing pupils, existing leads or the existing pipeline unless expressly agreed.

It would also be helpful to clarify the fee wording. The current schedules refer separately to a 15% commission and a 15% Operation Fee. My understanding is that the intended commercial structure is 30% in the first year and 15% in each subsequent year, rather than two continuing 15% charges.

Please could this be stated expressly, together with confirmation that the calculation is based on net tuition and boarding fee income actually received, after scholarships, bursaries, discounts, refunds, bad debt and other agreed deductions.

There is also a typographical error in the Finance email address in Schedule 2, which currently reads [finance@dcسف.or.uk](mailto:finance@dcسف.or.uk).

Given that BEP will be operating through an overseas agent network and handling information relating to children and their families, I would also like the compliance and data-protection provisions strengthened.

The agreement does not currently appear to include specific provisions covering anti-bribery, sanctions compliance, modern slavery, the prevention of criminal finances or the facilitation of tax evasion. I would expect appropriate clauses requiring BEP and all agents within its network to comply with relevant legislation, maintain appropriate policies and due-diligence procedures, and notify DCSF promptly of any suspected breach, investigation or compliance concern.

In relation to data protection, before the arrangement begins, DCSF would also need:

- a named list of all agents and sub processors who may access or process DCSF prospective pupil and family data;
- details of the countries from which data will be accessed, processed or stored;
- copies of, or evidence of, relevant transfer-risk assessments, international data-transfer arrangements;

- details of BEP's and its agents' security policies, technical safeguards and relevant certifications;
- documented personal-data breach identification, escalation and response procedures;
- evidence of appropriate professional indemnity, cyber liability and other relevant insurance cover.

DCSF should also retain the right to object to or require the removal of an individual agent or sub processor where there are safeguarding, regulatory, data-protection, security or reputational concerns.

I believe these amendments would provide BEP with appropriate protection for the relationships and enrolments it generates, while allowing DCSF to continue taking all reasonable steps to recruit international pupils in a difficult market and ensuring that the necessary regulatory protections are in place.

I hope these amendments feel fair and reflect the spirit of the original proposal. I am keen to find a structure that gives BEP confidence that it will be properly rewarded for the value it creates, while ensuring the Foundation retains the freedom to continue developing its own international recruitment activity.

Kind regards  
Debbie

Hi Debbie

I trust that you are having a lovely break and enjoying the sun!

Please find attached a copy of the agreement for your review, sorry for the delay.

As mentioned earlier this week, please take note of the various schedules at the end of the agreement including Schedule 4 – Existing School Agents.

Next steps to include latest discussions around market approaches and training!

Please don't hesitate to get in touch with any questions.

Kindest regards

John
